

Sky's the limit for Orange

REGULAR viewers of *Sky News* Business Channel 602 will be familiar with the show *Property Success* with Margaret Lomas.

Recently Ms Lomas chatted about property hot spots in NSW with other property experts including the senior economist at Australian Property Monitors Andrew Wilson.

Dr Wilson recently told the *Central Western Daily* that both he and Ms Lomas waxed lyrical about the Orange property market, telling viewers the city had several advantages for property investors including its proximity to Sydney, its strong economy and its food and wine industry.

Lamb on the lam

APPARENTLY one of the Sunday papers' special promotions in the lead up to Australia Day on Thursday proved very popular with

readers.

Readers of the paper were told to take a coupon to Woolworths and receive \$10 off a leg of lamb on Sunday and Monday.

The *Central Western Daily* received several calls from readers saying they tried to pick up lamb at both Orange stores but were told it had sold out by 10.30am on Sunday.

Lots of readers said they were disappointed they couldn't find the lamb with most saying they drove to both Woolies in an effort to track down meat.
